PROFESSIONAL SUMMARY

Software Developer with over 6 years of experience building web, mobile, and desktop applications. Proficient in full-stack development with a focus on JavaScript/TypeScript ecosystems (Vue.js, Nuxt, React, Node.js) and PHP/Laravel backends. Experienced in AI integration (RAG pipelines, OpenAI APIs) and leading development teams. Known for delivering clean, scalable, and user-friendly digital solutions across multiple industries.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, PHP, Python, HTML5, CSS3, SASS, MySQL, C#

Frameworks & Libraries: Vue.js (v2 & v3), Nuxt.js, React.js, Node.js, Express, Laravel, Lumen, Tailwind CSS, UnoCSS, VueUse

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, Bitbucket, Jira, Docker, Vite, Webpack, Vercel, Netlify, Figma, VS Code, JetBrains IDEs

AI & Emerging Tech: RAG (Retrieval-Augmented Generation), OpenAI API, GitHub Copilot, OpenAI Codex

Other: WordPress, REST API design, Agile/Scrum, responsive design, cross-browser compatibility

WORK EXPERIENCE

Senior Software Developer | VOCPhone

Nov 2021 – Present

36 Ricketty St, Mascot NSW 2020, Australia (Remote)

- Designed and implemented full-stack features aligned with user stories using Laravel, Vue.js (v2 & v3), TypeScript, Node.js, and Python.
- Led AI development efforts including building Retrieval-Augmented Generation (RAG) pipelines using Python and OpenAI APIs.
- Collaborated with cross-functional teams to deliver scalable, optimized software solutions in an Agile environment.
- Conducted code reviews and mentored junior developers to maintain high code quality standards.
- Utilized C#, SASS, and HTML/CSS for additional feature development and UI enhancements.

Software Developer | Webinarinc

Mar 2021 – Nov 2021

Remote | Pasadena, CA, USA

- Maintained and enhanced large-scale multi-tenant systems covering both frontend and backend.
- Developed and deployed web applications using Laravel, Vue.js, JavaScript, TypeScript, SASS, HTML, and CSS.
- Improved application performance and resolved legacy bugs across production environments.

Software Developer | UTalk Philippines

Aug 2019 – Mar 2021

Abanao Square, Baguio City, Philippines

- Reduced system error rates by maintaining and refactoring front-end and back-end code.
- Developed features using Vue.js, AngularJS, CodeIgniter, Lumen/Laravel, and Ruby on Rails.
- Managed relational (MySQL) and non-relational (MongoDB) databases for production applications.

Web Developer | Dap-ayan Eatery La Trinidad Benguet

Aug 2018 – May 2019

La Trinidad, Benguet, Philippines

- Built and maintained web systems using Vue.js, CodeIgniter, Laravel, and Ruby on Rails.
- Administered MySQL and MongoDB databases ensuring data integrity and application reliability.

UI Designer & Web Programmer (OJT) | ILearn Skills Development Academy

Aug 2018 – Dec 2018

La Trinidad, Benguet, Philippines

- Created magazine designs and layouts using Adobe Photoshop and Illustrator.
- Developed web algorithms and interactive features using JavaScript and PHP.
- Produced video content using Adobe Premiere.

EDUCATION

Bachelor of Science in Information Technology

Aug 2016 – May 2019

Kings College of The Philippines | Majored in Web Technology and Project Management
